

PRELUDE CARES NETWORK

ALIGNING BUSINESS WITH IMPACT

PCN promotes social responsibility and empowers communities through purposeful giving and meaningful partnerships.

About Prelude Solutions

Prelude Solutions is a technology consulting firm that helps clients enhance communication platforms and reduce technology costs by an average of 33%, leveraging in-depth analysis and a network of over 500 providers.

Our Mission

Prelude's mission is to collaborate with nonprofits to generate business and reinvest a portion of the proceeds back into those same organizations, championing the idea that business success and community impact go hand in hand.

How It Works

For every client referral for technology audits or new services, Prelude donates a percentage of revenue to Kelly Anne Dolan Memorial Fund, made in the client's honor and at no impact to their savings.
